EUCLID

**EdUcational Curriculum for the usage of LInked Data**

@euclid_project

WHAT WE DO

EUCLID facilitates professional training for data practitioners aiming to use Linked Data in their daily work, through a curriculum implemented as a combination of living learning materials and activities (eBook series, webinars, slide decks, screencasts, exercises, f2f training) validated by the user community through continuous feedback.

WHAT TOPICS DO WE COVER

- Introduction to Linked Data priniciples
- Querying Linked Data with SPARQL
- Providing Linked Data
- Visualising, searching and analysing Linked Data
- Creating Linked Data applications
- Scaling up Linked Data distribution, clustering and cloud deployment

An overview of the content produced can be found at:
http://euclid-project.eu/resources/learning-materials

We deliver our materials through a number of channels including eBooks

Euclid learning resources will be used to support the ESWC Summer School - see http://summerschool2013.eswc-conferences.org/ for more details

WEBINARS AND F2F TRAINING

The project offers one free webinar for each of the six parts of its learning curriculum.

Recordings of past webinars can be found on our vimeo channel at:
https://vimeo.com/euclidproject

Contact: Dr. Elena Simperl, e.simperl@soton.ac.uk

INTERESTED IN FEEDBACK AND COLLABORATION?
